

Comprehensive Third-Party Demand Package Review & Settlement Preparation
Giving insurers, TPAs, and self-insureds a decisive edge in third-party liability settlements.

THE CHALLENGE

The Problem Costing You Money

Rising Severity

Bodily injury settlements and medical costs are climbing year over year, putting mounting pressure on claims budgets.

Manual Review Is Slow

Demand package review is slow and inconsistent, leaving significant savings uncaptured — claim after claim.

Adjuster Bandwidth

Complex medical records require clinical expertise most adjusters lack, leading to inconsistent outcomes.

OVERVIEW

What Is DemandPro?

DemandPro combines advanced automation technology with certified medical review expertise to give insurers, TPAs, and self-insureds a decisive edge in third-party liability settlements — delivering defensible medical bill audits, expert nurse file reviews, and clear negotiation strategy through your existing claims management system.

THE PROCESS

A Comprehensive Two-Tier Review

01 TIER I Medical Bill Audit

Certified coders review every bill against jurisdiction-specific fee schedules, flagging improper coding, unbundling, and excessive charges — inpatient, outpatient, diagnostic, prescriptions, and more.

- Line-by-line bill analysis with recommended adjustments
- Jurisdiction-specific fee schedule benchmarking
- Flags improper coding & unbundling

02 TIER II Expert Nurse Clinical Review

Certified nurses analyze causality, identify unrelated treatments, assess medical necessity, and deliver actionable negotiation recommendations backed by defensible clinical documentation.

- Causality & treatment relatedness analysis

THE VALUE

Why DemandPro
